

Teacher – Contractual

The Chess 'n Math Association, a non-profit organization founded in 1985, is Canada's National Scholastic Chess Organization. The association is dedicated to bringing the game of chess to children and provides lessons for students between 5 and 14 in schools, libraries, community centers, etc.

The person will be asked to teach the game of chess to children 5 to 14 years old, most of the time as part of extra-curricular activities (lunch time and after classes). The person will also promote tournaments and other events organized by the Chess'n Math Association.

Responsibilities:

- Prepare activities for class and bring the required material
- Plan and teach lessons in schools mostly at the primary levels
- Participate in teacher training sessions as well as chess class management training
- Maintain a precise attendance file and notify the people responsible immediately if there are unmotivated absences

Skills and Experience:

- Talent for teaching, time management and good organisational skills
- Compassion for children and work experience with children
- Patience and sensitivity to children's needs
- Capacity to adequately manage discipline amongst a group of children
- Be ready to travel to schools

Schedule and Salary:

Teaching contracts will be given according requests of school departments from September to June. Teachers are paid an hourly and in some cases allocations for travels. For more information, feel free to contact Virginie Roux, the Director of scholastic programs at (514) 845-8352 or by montreal@echecs.org .
